readme.md for @apiclient.xyz/letterxpress

an unofficial API package for the letterxpress API

Availability and Links

- [npm package](#)
- [Source code \(Code.Foss.Global\)](#)
- [Issue tracker](#)

Usage

Use TypeScript for best in class intellisense.

letterxpress implements the LXP API documented here: [LXP API Documentation](#)

```
import * as letterxpress from '@apiclient.xyz/letterxpress';

const account = new letterxpress.LetterXpressAccount({
  email: 'myemail@example.com',
  apiToken: 'abcdefghijklmnop1234567890',
});
```

Contributing

Contributions, bug reports, and feature requests are welcome! Please open an issue or submit a pull request at [Code.Foss.Global](#).

changelog.md for @apiclient.xyz/letterxpress
