Status for master

Status Category	Status Badge
GitLab Pipelines	pipeline status
GitLab Pipeline Test Coverage	coverage report
npm	npm downloads per month
Snyk	Known Vulnerabilities
TypeScript Support	TypeScript
node Support	node

Status Category	Status Badge
Code Style	Code Style
PackagePhobia (total standalone install weight)	PackagePhobia
PackagePhobia (package size on registry)	PackagePhobia
BundlePhobia (total size when bundled)	BundlePhobia

Usage

Use TypeScript for best in class intellisense

This WebClient allows you to use the [consent.software](#) api in your webproject

Contribution

We are always happy for code contributions. If you are not the code contributing type that is ok. Still, maintaining Open Source repositories takes considerable time and thought. If you like the quality of what we do and our modules are useful to you we would appreciate a little monthly contribution: You can [contribute one time](#) or [contribute monthly](#). :)

For further information read the linked docs at the top of this readme.

changelog.md for @consent.software/webclient

2025-01-14 - 1.1.0 - feat(build)

Add tsconfig.json for TypeScript configuration

- Introduced tsconfig.json with configurations targeting ES2022 and using NodeNext for module system.
- Enabled experimental decorators and verbatim module syntax in TypeScript config.

2025-01-14 - 1.0.19 - fix(core)

Upgraded dependencies and fixed test export issue

- Updated development dependencies to the latest versions.
- Upgraded @api.global/typedrequest to version ^3.1.10.
- Upgraded @push.rocks/smarttime to version ^4.1.1.
- Upgraded @push.rocks/webstore to version ^2.0.20.
- Fixed default export for tap.start() in test.browser.ts.

2025-01-09 - 1.0.18 - fix(webclient)

Ensure all package dependencies are up to date and minor performance enhancements

- Confirmed compatibility with latest package dependency versions

- Optimized performance for certain webclient operations
- Ensured consistent adherence to TypeScript intellisense guidelines

2020-09-18 to 2023-08-27 - 1.0.1 to 1.0.17 - Core Updates

Routine maintenance and minor updates

- Continuous updates to the core functionality to improve performance and fix bugs.
