

changelog.md for @push.rocks/projectinfo

2026-03-26 - 5.1.0 - feat(projectinfo)

migrate project info loading to async factories and update build configuration

- replace synchronous npm metadata loading with async factory methods in ProjectInfo and ProjectInfoNpm
- switch filesystem access from @push.rocks/smartfile to @push.rocks/smartfs and update helper/tests for async usage
- refresh build tooling and project metadata configuration, including .smartconfig.json and tsbuild script updates

2024-05-29 - 5.0.2 - maintenance

Repository metadata and configuration updates across 5.0.2.

- Updated project description
- Updated TypeScript configuration
- Updated npmextra.json githost settings

2023-08-08 - 5.0.1 - core

Small core maintenance release with repository organization updates.

- Fixed a core update
- Switched to the new organization scheme

2022-04-18 - 5.0.0 - core

Major release introducing an ESM migration.

- BREAKING CHANGE: switched the package to ESM
- Included a core update alongside the release

2020-06-01 - 4.0.3-4.0.5 - core

Grouped maintenance releases with repeated core update work.

- 4.0.3 and 4.0.4 delivered routine core fixes
- 4.0.5 introduced a breaking change by switching core packaging behavior toward ESM compatibility

2018-09-02 - 4.0.0-4.0.2 - package

Infrastructure and package metadata updates across the 4.0.x line.

- 4.0.0 updated CI configuration
- 4.0.1 fixed the private parameter in package.json
- 4.0.2 delivered another core update

2018-09-02 - 3.0.4-3.0.5 - scope

Dependency maintenance followed by a breaking scope adjustment.

- 3.0.4 updated dependencies
- 3.0.5 introduced a BREAKING CHANGE by changing scope

2017-09-22 - 3.0.1-3.0.3 - maintenance

Routine maintenance releases focused on dependencies, CI, and documentation.

- 3.0.1 updated dependencies and README
- 3.0.2 updated dependencies
- 3.0.3 updated CI

2016-11-26 - 3.0.0 - documentation

Documentation-only release.

- Updated README

2016-11-26 - 2.0.0 - core

Feature release introducing the main project information class.

- Added the ProjectInfo main class

2016-10-27 - 1.0.3-1.0.4 - maintenance

Project standards, tooling, and documentation improvements.

- 1.0.3 updated smartfile, CI base image, and added README
- 1.0.4 updated the project to meet newer standards

2016-06-08 - 1.0.1-1.0.2 - refactor

Dependency and structure updates across early 1.x releases.

- 1.0.1 updated dependencies and restructured code
- 1.0.2 updated dependencies, project structure, and typings configuration

2016-02-23 - 1.0.0 - core

Initial stable release with token handling improvements.

- Added token handling correctly
- Included a small lint fix

2016-02-21 - 0.0.3-0.0.5 - core

Early project setup and metadata expansion.

- 0.0.3 updated project structure
- 0.0.4 added .license support to the npm class
- 0.0.5 added repository information and git metadata

2016-02-20 - 0.0.0-0.0.2 - bootstrap

Initial bootstrap releases establishing the project foundation.

- Added Travis CI setup
- Added a second npm version
- Added the getName function
