

changelog.md for @uptime.link/detector

2025-05-26 - 2.1.2 - fix(documentation)

Improve documentation formatting and code consistency across project files

- Refined readme.md: replaced CI status badges with streamlined installation and usage instructions
- Updated code formatting and whitespace in detector classes and interfaces for clarity
- Enhanced test file formatting and adjusted options to improve test readability
- Minor improvements in commit info data structure

2025-05-26 - 2.1.1 - fix(detector)

Improve test coverage and adjust detection result handling

- Updated readme hints and plan to document the enhanced comprehensive test suite
- Expanded tests to cover backward compatibility, performance benchmarks, and multiple service types
- Modified detection logic to set serviceType to UNKNOWN when a port is inactive with detectServiceType option

2025-05-26 - 2.1.0 - feat(detector)

Enhance port detection and service fingerprinting with improved HTTP/HTTPS and SSH checks, update test scripts for verbose output, and revise documentation with new hints and a detailed improvement plan.

- Updated package.json to use verbose testing and added '@git.zone/tsrun' dependency
- Improved Detector class: finalized detectType implementation with protocol-specific checks and banner grabbing
- Refined test cases to verify active ports and service detection for HTTP, HTTPS, and SSH
- Expanded readme hints with project overview, key components, and detailed improvement plan

2025-05-26 - 2.0.2 - fix(ci)

Update CI workflows, dependency paths, and project configuration

- Added new CI workflow files (.gitea/workflows/default_nottags.yaml and .gitea/workflows/default_tags.yaml) to replace the old GitLab CI configuration
- Removed obsolete .gitlab-ci.yml file
- Updated dependency import paths from '@pushrocks' to '@push.rocks' in source and commit info files
- Revised package.json with new metadata fields and updated dependency versions
- Enhanced tsconfig.json with decorator metadata and NodeNext module settings
- Minor adjustments in .gitignore and readme formatting

2022-07-16 - 2.0.1 - no significant changes

This release was a version update only and did not include any relevant changes.

- No noteworthy modifications.

2022-07-16 - 2.0.0 - core

fix(core): update

- Updated core functionality.

2022-07-16 - 1.0.5 - core

BREAKING CHANGE(core): switch to esm

- Switched to ES modules, introducing breaking changes.

2022-07-16 - 1.0.4 - core

fix(core): update

- Updated core functionality.

2021-04-14 - 1.0.3 - core

fix(core): update

- Updated core functionality.

2021-04-13 - 1.0.2 - core

fix(core): update

- Updated core functionality.

2021-04-12 - 1.0.1 - core

fix(core): update

- Updated core functionality.

Other releases that were simple version bumps have been omitted from detailed descriptions.

Revision #2
